Book

BfK Rating:

3

Consciously multi-racial in approach, this book with large print and quality photographs will be useful in classrooms and as a discussion tool with adopted children. Fostering as well as adoption is explained, and while the information is basic, it is also reassuring. Perhaps it could have been made clear that not all birth parents want to meet their birth children ? and vice versa. Good notes for parents and teachers, a list of information sources and an index make the book accessible.
